INVITES YOU TO JOIN US  
“OPERATING SYSTEM 2.0, THE FUTURE OF CONSTRUCTION”

FRIDAY, JUNE 7, 2019

LOCATION: Public Service Electric & Gas Company  
4000 Hadley Road (Enter at Door #3)  
South Plainfield, NJ 07080

**PSEG**

*We make things work for you.*

9:30 A.M.: Registration, Continental Breakfast & Networking  
10:00 A.M.: Program and Q&A

PROGRAM: Operating System 2.0 (OS2), The Future of Construction

OS2, which is being led by the Construction Industry Institute Contractors (CII) and the Construction Users Roundtable Owners (CURT), is a technology-enabled business transformation for our industry, wherein we are redesigning the fundamental business ecosystem for construction and creating a new transactional platform that will lower cost, improve speed, and result in a much healthier industry. It is beyond implementation of Best Practices, which unfortunately are not delivering the necessary step-change improvements that we require across our industry. OS2 is a transcendent initiative that will create an environment for advanced management concepts and point solutions to thrive and deliver significant improvements in capital efficiency for owners and profitability enhancement for contractors and the entire supply chain. There are over 70 companies and 20 consortiums that are interested and/or involved in OS2 thus far, and the list grows monthly.

A recent ENR session offered this same class and stated: “learn how this new system could achieve break-through improvements such as cutting 50% of time and 35-40% of costs out of capital programs. Hear how the paradigm shift in how projects are financed, designed and constructed could unfold while embracing an accelerated leveraging of technology.”

If you are not building pursuant to OS2, then the industry is passing you by ... This program cannot be missed ...It is sweeping the country ...This is the wave of the future!

**SPEAKERS:**

Daniel H. Groves, Director of Operations and Workforce Consultant for CURT  
Peter Dumont - CURT  
(Construction Users Roundtable)

**About the Construction Roundtable of New Jersey (CRTNJ)**

The CRTNJ has been in existence for more than 40 years and is the only professional organization that focuses on the needs of New Jersey Construction project owners. Our Mission is to make New Jersey construction more competitive in the national and global marketplace, provide Members with a variety of robust presentations, workshops and forums to both educate and stay current on developing technologies, regulations, legislation, and industry best practices. The CRTNJ brings together corporations, universities, design firms, contractors, subcontractors, construction managers, professional service firms, trade associations and labor representatives to discuss and better understand how we can collaboratively work together, in a win-win environment, to address and resolve those issues that impede growth and profitability of the construction industry, as well as provide a competitive environment for companies to grow and prosper. Visit [www.crtnj.org](http://www.crtnj.org) for more information.
