LEGAL UPDATE: Synopsis of Misclassification Report from Governor Murphy's Task Force - How the State of New Jersey is Cracking Down on Contractors that Classify Employees as 1099 Consultants

Stephen W. Bialkowski, Esq.

PRESENTERS:

Jerry J. Killian, CPA, Senior Vice President

FEATURE PROGRAM: 3D SCANNING IN CONSTRUCTION

- 3D Scanning and Visual Data is taking risk and cost out of the building process, while providing legal protection to all project stakeholders
- The visual data can be leveraged from pre-existing conditions through project closeout, and serve as a powerful as-built record.
- Owners and Facility Managers can leverage the visual data 3d scans provide and bring truth to their as-built documentation.
- Someone once coined the phrase "Pictures Speak Louder than Words".
- If pictures speak louder than words than the use of 3d scanning in construction is deafening!
- Whether you are an owner, facility manager, architect, engineer, GC, or subcontractor leveraging 3D scans and visual data will save you time, money, and protect you against legal disputes should they occur.

PRESENTERS: KEVIN O'KEEFE AND DAVID CRAMER

R.S. Knapp / Napco
