About the Construction Roundtable of New Jersey (CRTNJ)

The CRTNJ has been in existence for more than 40 years and is the only professional organization that focuses on the needs of New Jersey Construction project owners. Our Mission is to make New Jersey construction more competitive in the national and global marketplace, provide Members with a variety of robust presentations, workshops and forums to both educate and stay current on developing technologies, regulations, legislation, and industry best practices. The CRTNJ brings together corporations, universities, design firms, contractors, subcontractors, construction managers, professional service firms, trade associations and labor representatives to discuss and better understand how we can collaboratively work together, in a win-win environment, to address and resolve those issues that impede growth and profitability of the construction industry, as well as provide a competitive environment for companies to grow and prosper. Visit www.crtnj.org for more information.
